

KONICA MINOLTA

Giving Shape to Ideas

CAPTURE THE TRUE COLOUR OF LIFE

RETHINK HIGH CHROMA PRINTING

AccurioPress C84hc/C74hc

A NEW WORLD OF COLOUR REPRODUCTION

INTRODUCING THE AccurioPress C84hc/C74hc FROM KONICA MINOLTA

Recreating images accurately, just as you captured them, is not always possible with conventional CMYK inks and toners. The AccurioPress C84hc/C74hc has been uniquely engineered to solve this problem and bring your customers' work to life complete with its original vibrancy.

Colours seen in screen or images shot using a digital camera can express a wider colour gamut than CMYK used for conventional printing.

As the world's only printer that uses a new toner free of the restrictions imposed by the colour gamut of conventional toners, the AccurioPress C84hc/C74hc offers a great solution to such problems.

With combination of the wider colour gamut and higher L* value of high chroma cyan toner than that of CMYK toner, clear and bright colours can be maintained especially for bright blue and green.

INNOVATE PRINT

RETHINK TECHNOLOGY

Intelligent Quality Optimiser

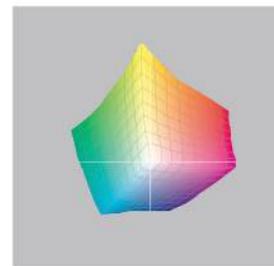

The IQ-501 Intelligent Quality Optimiser takes colour consistency and registration accuracy to the next level. With highly automated image registration and color control, a closed-loop system that constantly monitors and adjusts printed output, and automated color calibration and profiling, IQ-501 delivers streamlined operator time, reduced print waste, and industry-leading productivity!

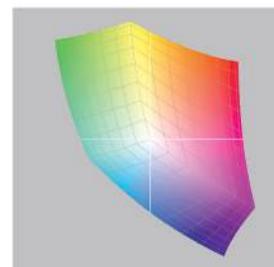

High Chroma Toner

Konica Minolta unique toner innovation ensures consistently excellent image output quality on par with offset quality. The images produced have razor-sharp edges and lines, outstandingly solid colours, and brilliant half-tone and skin-tone quality. The secret behind the quality of the HC toner is that it was engineered to easily follow the roughness of the paper surface to achieve an optimised and natural lustre for each type of paper – from glossy and matt coated paper to non-coated paper.

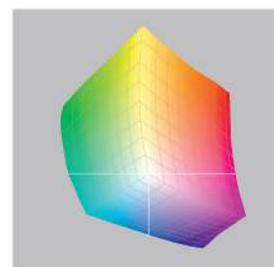

By utilising high chroma magenta toner, vivid and clear pink and purple colours can be obtained. Graphic designer and illustrator sometimes have to give up to use these colour they want use. High chroma toner get rid of the restrictions. The high L* value helps to create smooth and less graininess skin tone that is good for photo related applications. Also, the vivid colour make possible to create eye-catching poster, POP and so on that makes big differentiation from other printers.

CMYK colour space

sRGB colour space

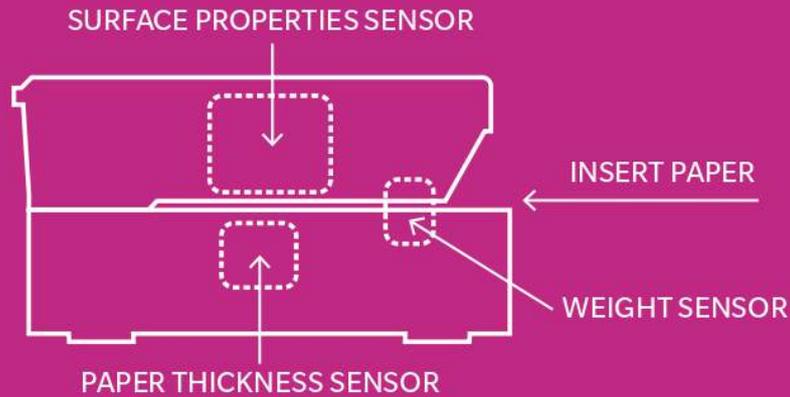

HC toner colour space

Media Detection Sensor

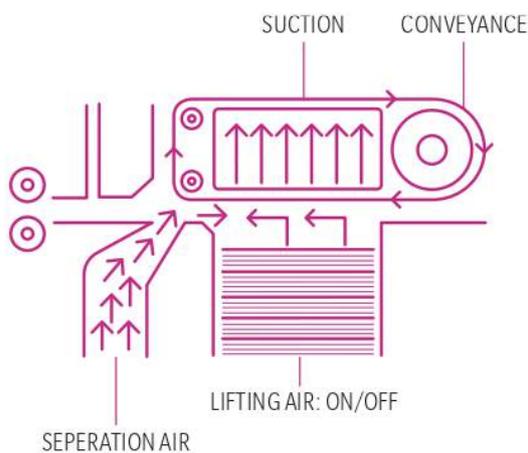

The optional media sensor IM-101 automatically detects the type, weight, thickness and surface of each substrate, and proposes the appropriate paper

settings from the catalogue, which makes wrong paper settings a thing of the past avoiding misprints and waste.

S.E.A.D. X Image Processing

Konica Minolta's own advanced colour processing technology of the fifth generation is called S.E.A.D. X, which stands for "Screen-Enhancing Active Digital Process", and combines an array of technical innovations to guarantee truly exceptional colour reproduction at top speed.

Vacuum paper feeding

It is essential for high-volume printers to feed each and every sheet smoothly and precisely through the digital press. To ensure this, Konica Minolta offers professional and intelligent paper feeding that builds upon proven concepts, including a combination of air separation of sheets and suction/ vacuum feeding. This ensures smooth paper processing throughout the printing system. For efficient printing on offset preprinted and coated stock as well as under high humidity conditions, an optional heating unit can be added to enhance this precise technology further.

STATE-OF-THE-ART PRINT SERVER

RETHINK USER EXPERIENCE

THE IC-609 KONICA MINOLTA OWN CONTROLLER

The Konica Minolta IC-609 print controller brings powerful workflow benefits – including 2,400 dpi printing at full rated engine speed, high-speed RIP processing, enhanced accuracy in colour reproduction, colour management functions and full compatibility with print engine on-board job control and editing functions.

THE IC-317 FIERY® IMAGE CONTROLLER

Providing advanced job management and workflow automation, the Fiery® IC-317 reduces labour costs, cuts turnaround times, and minimizes errors as well as waste. The instant visual preview and advanced make ready capabilities streamline job layouts. Support of industry-leading variable data printing (VDP) formats facilitates the profitable production of personalized short-run jobs.

THE IC-419 INTERNAL FIERY® IMAGE CONTROLLER

As the embedded Fiery® controller alternative, the IC-419 offers a combination of affordability, versatile colour management and PCL support plus a wide range of security features. It helps improve the ease of use of AccurioPress systems, and simplifies workflows so that our digital colour presses deliver truly professional print results, making any configuration an ideal business solution for your company's printing facilities.

STREAMLINE YOUR PRODUCTION

RETHINK YOUR WORKFLOW

Evolving from our expertise in precision technologies and more than 80 years of experience in the printing and imaging industries, AccurioPro reflects our commitment to developing market-shaping technology with functionality that enables your business to grow. AccurioPro, Konica Minolta's suite of digital solutions for professional printing, is one of the industry's most versatile and powerful tools to optimise print production operations and workflows.

For all printing companies looking to integrate their printing as well as businesses that use digital printing to produce their own in-house publications and promotional materials, AccurioPro boosts speed and

efficiency, expands capabilities and services, and reduces the need for operational manpower – all of which will help improve your profitability!

The comprehensive suite of features that AccurioPro offers includes centralised management, software for automated workflow processing, colour management, seamless integration of different printing technologies and full connectivity of all Konica Minolta printing systems used from input to output.

YOUR ADVANTAGES WITH THE AccurioPress C84hc/C74hc

RETHINK PRODUCTION PRINTING

HIGHEST RELIABILITY

- Long-life platform, long-lasting parts and consumables
- Registration-swing mechanism for accurate duplex registration
- Fusing-rolling mechanism

DURABLE PERFORMANCE

AccurioPress C84hc/C74hc

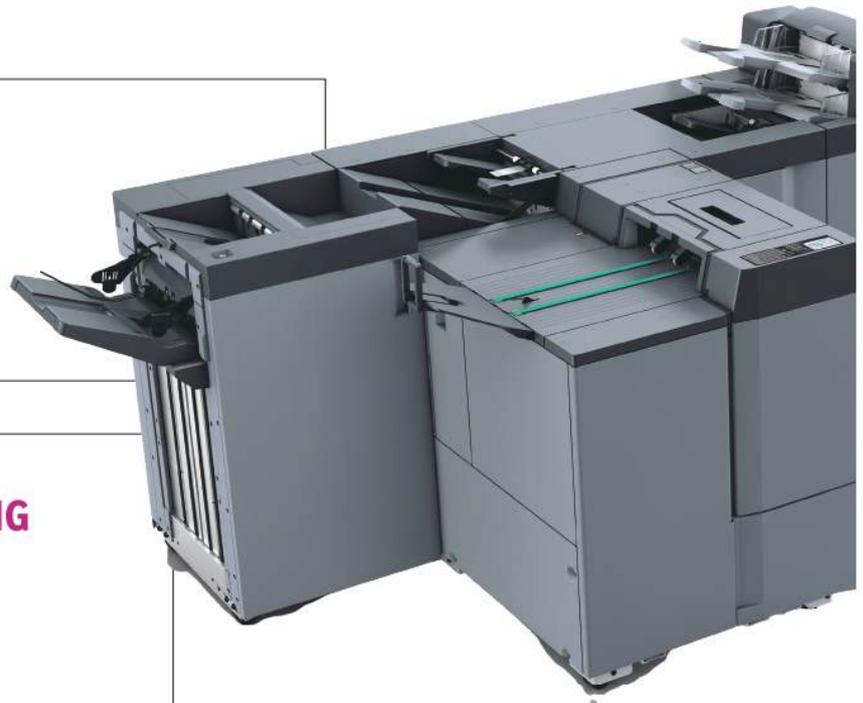

- Up to 81 A4 pages per minute
- Up to 39 SRA3 pages per minute

GEARED-UP FINISHING

- 2- & 4-hole punching
- 6 different types of folding
- Large-capacity stacking
- Perfect Binding
- 2 Perforations in feed direction,
5 Perforations in Cross feed direction
- Up to 5 Creases downwards or upwards

READY-MADE PRINT PRODUCTS

- 50-sheet booklet making with front trimming and 35-sheet booklets with optional creasing, slitting and spine corner forming
- Perfect binding for books of up to 30 mm
- 100-sheet stapling with cutting mechanism
- Automated inline business card and postcard cutting
- Full bleed banners, A3 and A4 posters

HIGH-END PRINT CONTROL

- Flexible choice of controller technology:
Fiery® or proprietary
Konica Minolta controller
- Integration into hybrid workflows

EASE OF USE

- Simple paper catalogue settings
- Operator Replaceable Parts
- Auto Inspection Technology

SIMPLY EFFICIENT

- Automated engine linearisation
- Automated duplex registration
- Automated profiling
- Real-time adjustments
- Purge function

SOPHISTICATED MEDIA HANDLING

- Air suction or air-assisted paper feeding technology
- Up to 11 paper trays
- Long sheet printing of up to
1,300 mm (simplex), 864 mm (duplex)

PERFECT IMAGE QUALITY

- S.E.A.D. X technology and
3,600 x 2,400 dpi x 8 bit resolution)
- Simitri HDe High Chroma toner
- Image density control technology

COMPREHENSIVE MEDIA PROCESSING

- Up to 360 gsm paper weight in simplex and duplex
- Optional media sensor estimates paper weight and type
- Envelope print function as standard
- Support for embossed paper

10 GOOD REASONS FOR AccurioPress C84hc

1. SUPERB COLOUR REPRODUCTION WITH HIGH PERFORMANCE

Only one electro-photo system that reproduces colours close to sRGB that is never been reproduced with ordinary CMYK systems.

2. PERFECT IMAGE QUALITY

with Konica Minolta's very own Imaging Technology and Toner development.

3. SELECTABLE PRINT MODE

By the selectable print mode, both of colours close to sRGB and colours closer to CMYK can be obtained with one system. Let your customer decide.

4. LOW LEARNING CURVES

Precise colour matching, even for novice operators, avoids or at least minimises learning curves.

5. SIMPLY EFFICIENT

with Media Detection Sensor, Intelligent Quality Optimiser and many unique inline finishing options.

6. PANTONE COLOUR REPRODUCTION

with Media Detection Sensor, Intelligent Quality Optimiser and many unique inline finishing options.

7. GIVE PRODUCTIVITY A BOOST

Make time-consuming colour setup a thing of the past and print up to 4,399 sheets per hour.

8. WIDE PAPER COMPATIBILITY

Media up to 360 gsm. Excellent versatility with class leading banner printing, envelop printing and texture printing capabilities.

9. BETTER COLOUR QUALITY & SKIN TONE

Enabling realisation of smooth skin tones with reduced skin texture roughness and less graininess. High-quality prints can also be supplied for items such as small-lot cosmetics or apparel catalogues.

10. WORRY-FREE OPERATION

Real-time quality control for consistent and faultless print products

TAKE LEADERSHIP AND RESPONSIBILITY

RETHINK TOMORROWS' BUSINESS

MADE YOUR BUSINESS

Commercial printers

The AccurioPress C84hc/C74hc delivers in-line, closed-loop quality management for automated colour calibration and control, and in-line automated image registration, without the need for highly specialised press operator skills. Combined with its ability to print on media up to 360 g/m², envelopes and long sheet banners, the C84hc brings your commercial print business a whole new world of possibilities.

The wider colour gamut of the high chroma toner used by AccurioPress C84hc utilises colour materials featuring greater saturation and brightness, enabling realisation of smooth skin tones with reduced skin texture roughness and less graininess, making it ideal for studio photograph and photo book printing.

CRD

The AccurioPress C84hc/C74hc series provides the highest degree of automation and produces quality on the highest level. With its professional inline finishing, you can create ready-made products at the push of a button; and the Intelligent Quality Optimiser IQ-501 makes sure that the print quality is automatically set, AccurioPress C84hc also covers most of the CMYK colour gamut, High Chroma Toner enables the creation of beautiful prints of ordinary CMYK files with ease simply by applying CMYK profiles. The HC Toner enables also a better spot colour reproduction for company logo's.

Design for our planet

Konica Minolta promotes sustainable development and integrates environmental and social perspectives into its business strategies. You can rely on Konica Minolta products to underpin your green strategy to build your business. Committed to help prevent global warming, Konica Minolta strives to reduce CO₂ emissions during product manufacture, product distribution, at the sales stage, and during product use – with even stricter targets than demanded by the Kyoto Protocol. Enabling carbon neutrality, Konica Minolta offers its customers the offset of unavoidable CO₂ emissions for production printing.

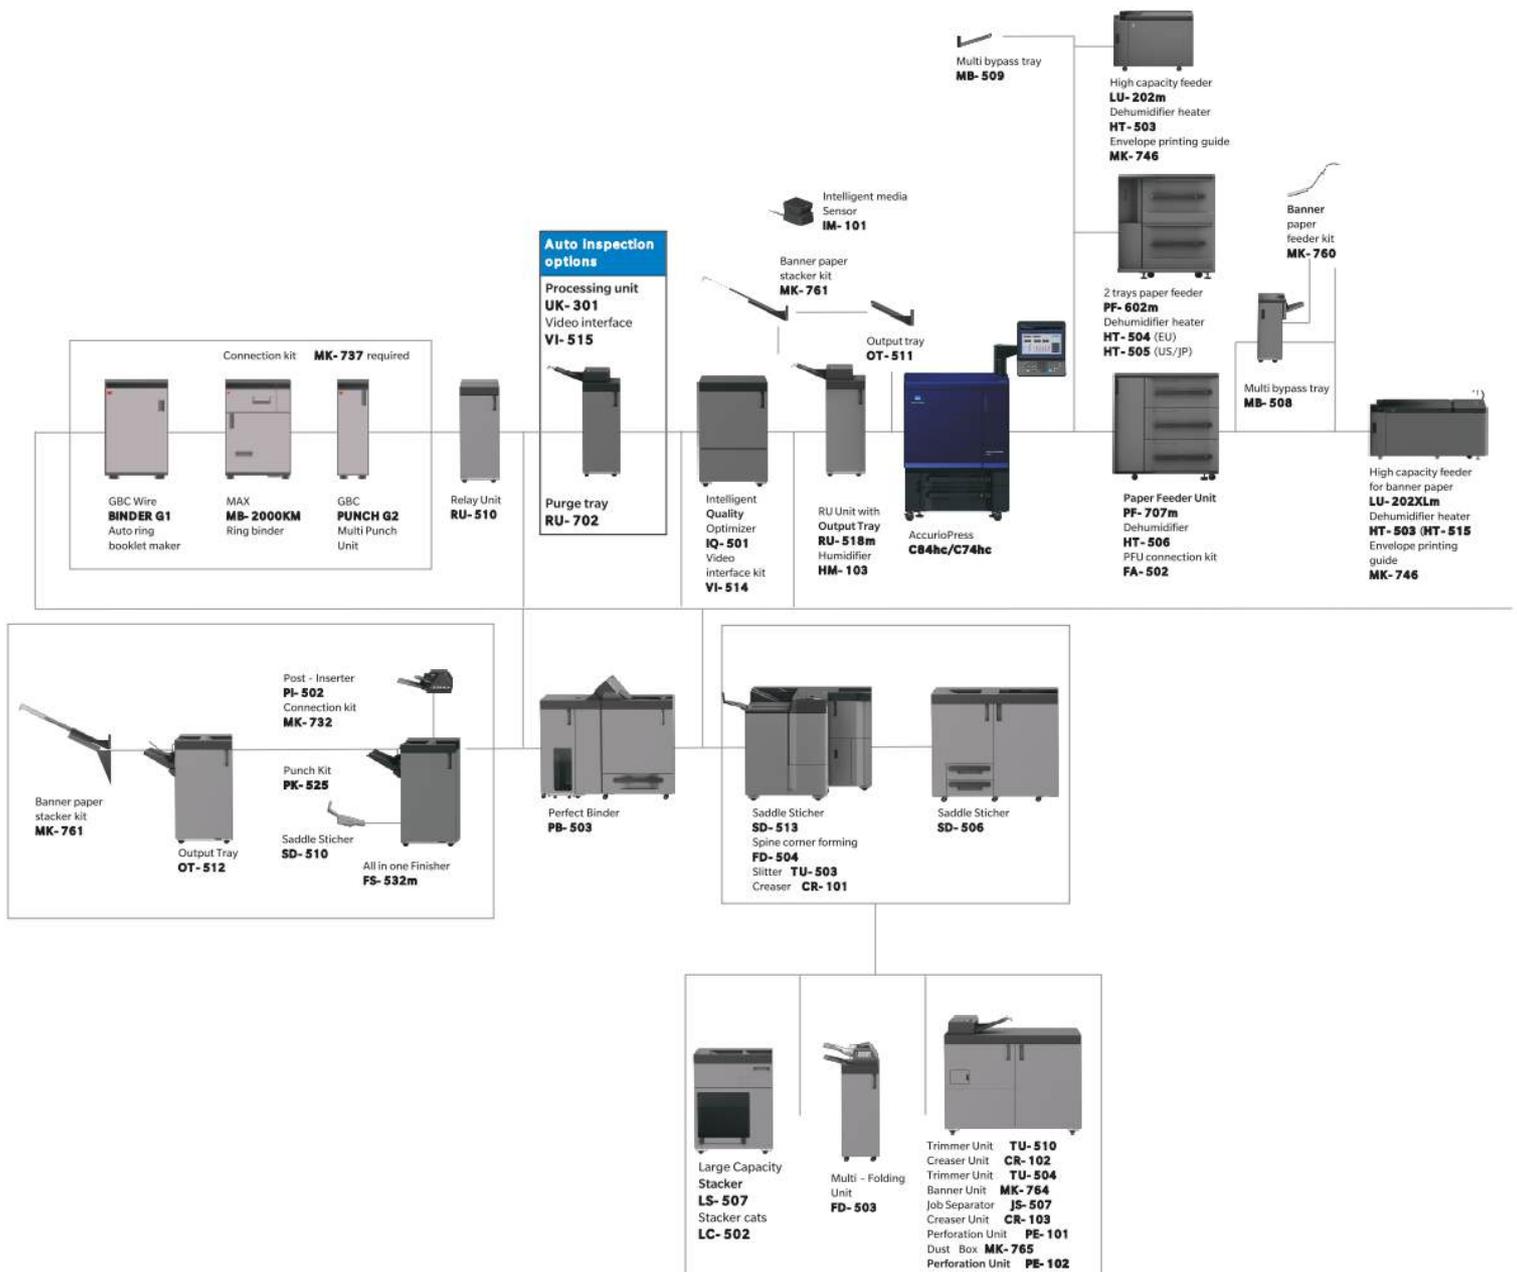

System Configuration

Options for printer body

- Working table **WT - 511**
- Pat-light **MK-744C**
- IC card authentication **AU-201S**
- Dehumidifier heater for printer tray **HT-511**
- Fusing unit for envelope printing **EF-107**

Controller

- Konica Minolta Embedded Controller **IC-609** APPE kit **UK-220**
- Fiery Controller (Server type) **IC-317**
- Fiery Controller (Embedded type) **IC-419**
- Video interface kit **VI-515**

AccurioPress C84hc / C74hc General Specifications

Main Unit	C84hc	C74hc	
Type	Console type		
Colour support	Full colour		
Writing resolution	Equivalent to 3600 dpi x 2400 dpi		
Gradation	8 bit / 256 gradation		
Warm-up time	390 sec. or less		
Magnification	25 - 400%, in 0.1% steps		
Print speed full colour & monochrome	81 ppm (A4 Landscape) / 45 ppm (A3)	71 ppm (A4 Landscape) / 39 ppm (A3)	
First Copy/Printing Time (Color/Monochrome)	6.1 seconds or less/4.0 seconds or less		
Paper size	100 x 148 – 330.2 x 487.7 mm (up to 1,300 mm with optional Banner Kit)		
Paper weight	62 – 360 gsm		
Paper capacity	15,390 sheets (with main body standard tray + 3 paper feeding units (PF-707m Type C))		
Paper weight	12,000 sheets (with Large Capacity Stacker LS-507 x 2)		
Controller CPU	Intel Core i5-6500 3.2GHz ¹		
Power supply	AC 200V, 25A, 50Hz/60Hz (Voltage to ground 100V)		
Maximum Power Consumption	5,760W		
Main Unit Size (WxDxH mm)	Main unit	31.50 x 35.55 x 40.98 inches (800 x 903 x 1,041 mm)	
	(Recommended) configuration	84.65 x 35.55 x 58.19 inches (2,150 x 903 x 1478 mm) (main unit + LU-202m + FS-532m)	
Main Unit Weight	Approx. 672.41 lb (305 kg)		
Maximum Print Area	12.72 x 18.90 inches (323 x 480 mm) (Banner sheet: 12.72 x 50.98 inches (323 x 1,295 mm))		
Compatible Paper weights	Main unit	16 to 68 lb (62 to 256 ² g/m ²)	
	Paper feed	PF-707m: 16 to 95 lb (62 to 360 g/m ²) MB-508: 16 to 81 lb (62 to 300 g/m ²)	
	Paper output	Straight paper output: 16 to 95 lb (62 to 360 g/m ²) Reverse double-sided output: 16 to 95 lb (62 to 360 g/m ²)	
	Banner paper	MK-760/MK-761: 34 to 68 lb (128 to 256 g/m ²) (up to 51.18 inches (1,300 mm) length) LU-202XLm: 34 to 68 lb (128 to 256 g/m ²) (18.85 to 30.00 inches (478.8 to 762 mm) length)	
Paper Feed Capacity (21 lb (80 g/m ² sheet))	PF-707m: 3-level tray, air suction system Top level/Middle level: 1,390 sheets each, Bottom level: 1,850 sheets 15,390 sheets (Main unit tray, with 3 PF units connected)		
Paper output capacity (21 lb (80 g/m ² sheet))	RU-518m (Sub Tray) 100 sheets (stacking height: 20 mm)		
Copy Speed	Single side A4	81 ppm or 4,399 sides or more/hour	71 ppm or 3,848 sides or more/hour
	Simplex A3	45 ppm or 2,404 pph	39 ppm/ 2,074 pph
Compatible Controllers	IC-609 (KM), IC-317 ver.3.0 (Fiery), IC-419 ver.3.0 (Fiery)		

*1: In the case of Image Controller IC-609

*2: For 58 to 68 lb (217 to 256 g/m²), only papers that are at least 8.27 to 11 inches (210 x 279.4 mm)

Other options

Working Table	WT-511
Envelope Fusing Unit	EF-107
Dehumidifier Heater	HT-511
Status indicator light	MK-744C
Intelligent Media Sensor	IM-101
